

**Hello, I'm a fan  
Northern Germany Bremen.**

My name is Andreas Heißenbüttel, I was born in 1960 and live in the Free Hanseatic City of Bremen.

There are several reasons why I write this way. The first is that I'm a really big fan of Jennifer and I'm very upset about something on the World Wide Net.

But first of all, CONGRATULATIONS ON YOUR 56TH BIRTHDAY and all the best from my heart, may God protect you on your journeys to come.

I would like to elaborate a little so that you can understand it. Firstly, my excuse is that my English isn't that good anymore. But unfortunately my Air Force service with the German Air Force in El Paso was 43 years ago. Furthermore, on July 6, 2006 I drove the US Ambassador, William R. Timken and his family for several days. That was the last time I really spoke English (Southern English).

When I saw you on TV or in films, I was always (still to this day) blown away. Especially the first film/series, as "Rachel Green", I learned to appreciate and love you. I had only been in Germany for 12 years and was thinking about coming back to the States because of this dream woman.

WOW, it just blew me away, the embers blazed in my heart until recently. I looked on TIKTOK and again found this dream woman who had become even prettier (in my eyes).

I am from the Gemini ascendant Taurus horoscope because you are an Aquarius (born February 11, 1969, which is also my mom's birthday, she is 86 years old) and we would fit together through our mental karma. I plucked up the courage to write to you there.

So the course of anger began, but you Jennifer can't help it! Except that I allowed myself to be dazzled by your beauty there. There were several profiles there, and it was very important to me to get to know you better, so I wrote to several of them.

The first contact came about right away, only when @jenifferjoanaaniston1 was visible and she asked me to switch to Telegram and that became @jennianiston113.

The ruler of Gemini is Mercury, the planet of communication and intellect.

This offered me that I was very interesting for you (I thought you said this). Since I am also a happy and optimistic person and am bored and monotonous and always have a lot of ideas in my head, I grabbed it and started the conversation.

We have a saying in Bremen from 1899, outside and inside – dare and win.

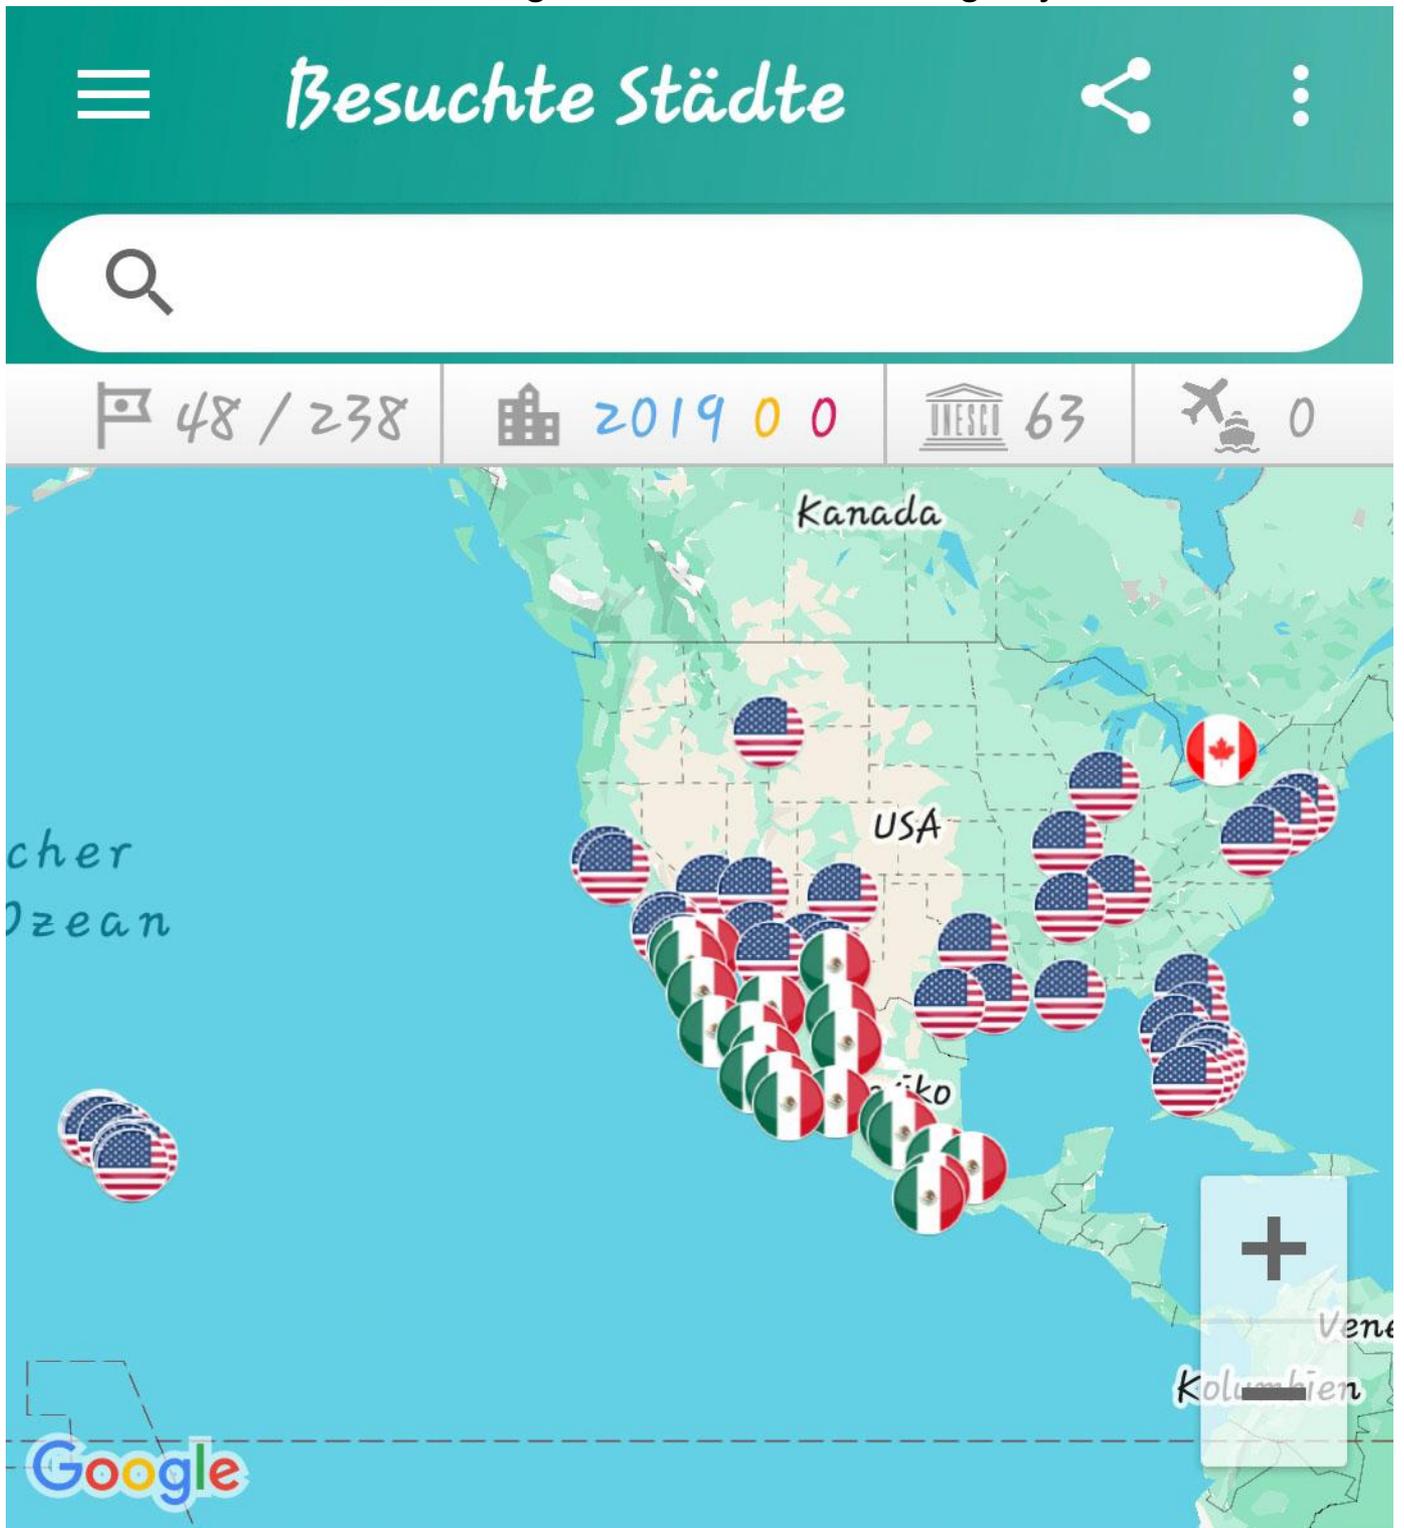

Since I live by it, I addressed it.

And so it started, on the following 4 pages.....

@jennianiston113.

It was a restart because I noticed that something was wrong with it in real time.

Since I traveled a lot throughout the States during my time in 1981/82,

kenne ich mich mit den Zeitzonen aus

So at the first contact the question arose: "Where are you at the moment?" For me it was 10 a.m. and there it would have been 1 a.m., but it showed 8:38 p.m. As it happened, I confronted her and she came across as a bit aggressive.

Then I decided to re-record this because I deleted the old contact out of frustration. So unfortunately he is not in charge right from the start.

So.... The second contact came:

Especially when I saw those eyes!

Jennifer with me, the embers were now a forest fire and fireworks at the same time.

I don't understand your ex-husbands, sorry, the Gemini gets away with his direct nature.

Such a dream woman who has to!!!! Be carried on your hands, keep your back free for her when she's cold then warm when she needs closeness, be close to her. And if not in the 1st row, then stand back in the 2nd or 3rd row and if she wants your hand, give her hand and much more. This is a given for me. I don't need fame, you have it!!! I just need a job so

that I don't end up on your back, unless it is your will.

But the second contact: also on February 9, 2025

There were 2, then there was @jennifer\_aniston\_004

I answered the question:

Jim & handball, computer & drone flying and also here the twin:

Well, it doesn't help if the head controls everything, it has to come from the heart, because the hands say a lot through touch and the eyes tell the truth, but I have to realize that there isn't much truth on the internet, my eyes see it and the brain compensates for the results. I play football in the States and had a

great time in El Paso for two years. No answer there.

To me, the question arose: what do I look like!? Do you know Bud Spencer, only without the beard. I'm 190 cm tall and have broad shoulders to lean on and feel comfortable.

For you, my dream woman Jennifer, I would give my last shirt.

So I close, if you feel like getting to know each other, then +49 160 7004870 incl. AB or andreas@heissenbuettel.de or Telegram @Sirpocobremen Password: "Engel"

Howdy Andreas

P.S. Congratulations my dear
